

Flow Cytometry Benchtop Training Application

Terry Fox Laboratory

- Instructions:**
- 1 Complete the application form .
 - 2 Before a training session is scheduled you must acquire basic instrument knowledge by working alongside or shadowing an experienced benchtop user. 5-10 session in front of an instrument is required. Record the date and time below. Once completed, return this form to the Flow Core Lab (Rm 11-218).
 - 3 Visit the Flow Cytometry Core website (<http://tflflow.bccrc.ca>) where you can view instrument specifications and manuals.
 - a) Complete the " Introduction to Flow Cytometry" tutorial found under Manuals and Tutorials. Test your knowledge by completing the quiz at the end of each session.
 - b) Download a copy of the training manual from the Flow Core Website. Bring this manual with you to the training session.
 - 4 You will be notified by e-mail with a date and time of the next training session.

User Information: Name: _____ Phone: _____
 Email: _____ Lab: _____
 Job Title: _____
 Project Supervisor: _____
 Project Title: _____
 Start Date: _____

Instrument: FACSCalibur - 4 color FACSCalibur 6 color
 FACSsort - GFP/YFP RoboSep

Fluorochromes: _____

Signatures: Applicant: _____ Date: _____
 Supervisor: _____ Date: _____
 Flow Core Manager: _____ Date: _____
